Existing accommodation and planned developments

Below is the list with all existing tourist accommodations and planned tourist accommodation developments shown on the map. This list is comprised of hotel licence applications mentioned in the Tanintharyi Region Tourism Development Plan (left) and other accommodations (already existing, under construction, planned, other status) but of course it is not complete nor is it always correct.

As the tourist sector in Tanintharyi develops very dynamic, we would be happy to receive corrections, comments and feedback regarding those hotels and developments.

Furthermore, if you know of accommodation / hotel developments not yet listed here, please write a note with some descriptive information about the location so we can add it to the list.
